Strong presence in all regions

Net sales per product group
PED and ASME-oriented product groups have equal weight

Introduction

With more than 800 employees, LESER is the largest manufacturer of safety valves in Europe and a leader in its market worldwide. LESER safety valves are used by leading companies in industries such as chemical, petro-chemical, industrial gases, oil and gas production, and machine building, as well as the food and pharmaceutical industry.

LESER offers spring-loaded and pilot-operated safety valves for all industrial applications according to PED and ASME VIII as well as application-based solutions for special requirements.

LESER safety valves are developed for the international market at our headquarters in Hamburg, Germany and manufactured at our modern factory in Hohenwestedt, Germany. In addition, LESER India produces safety valves for the local market.

Timeline

1885
Complete range of steam fittings, incl. safety valves

1957
First test lab for safety valves

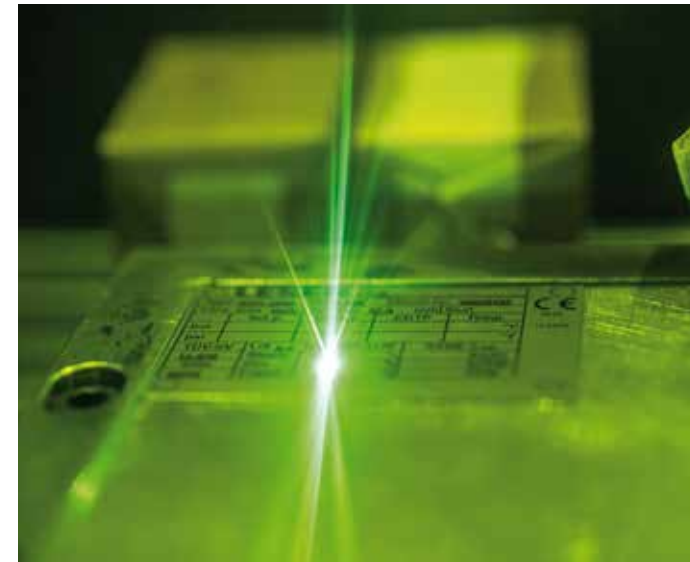

1980s
Leading supplier for safety valves in Europe

1818
Founded as a brass foundry in Hamburg, Germany

1943
Destruction of the plant, relocation and founding of new factory in Hohenwestedt, Germany

1970s
Specialization in safety valves

Eight subsidiaries in Europe, America, the Middle East, and Asia, as well as authorized and trained representatives in over 80 countries guarantee competent consulting and quick, reliable delivery. This 'References' book provides a selection of references worldwide from the various industries.

This information should provide you with an overview of LESER's capabilities, solutions for all industries, and penetration in the global safety relief valve market. If a specific reference is required which is not shown in this list, please do not hesitate to contact your local partner or sales@leser.com.

1994
Test lab receives ASME certification (first and only outside of the US)

2003
Launch of the API Series

2014
Founding of wholly-owned subsidiary in China

2015
POSV Assembly at LESER US

1990
First ASME approval

1998
First subsidiary founded

2010
Launch of the Pilot Operated Safety Valve

2015
Manufacture of API and Compact Performance valves at LESER India

Product Range

Type 526

API Series 526

Flanged safety valves that meet all the requirements of API 526 such as standardized orifices and center-to-face dimensions. Their robust construction makes them especially suitable for high pressures and materials like Duplex, Monel or Hastelloy.

Applications	Product features
<ul style="list-style-type: none"> Refineries Chemical industry Petrochemical industry Oil and gas – Onshore and Offshore 	<ul style="list-style-type: none"> Valve sizes 1" through 8", Orifice D through T Materials: WCB, CF8M, WC6, LCB and in API Alloy Concept materials like Duplex, Super Duplex, Monel, Hastelloy and Inconel with short delivery times Design according to API 526 Great variety of options and flanged connections available Standard metal sealing, soft seat as option Single trim for steam, gas and liquid

Compact Performance Series 437, 459

Threaded and flanged safety valves with compact dimensions for economical protection of small and mid-sized capacities. Many orifice diameters, seals and connections offer a very wide area of application.

Applications	Product features
<ul style="list-style-type: none"> Thermal relief Air /gas compressors and pumps Technical gases and CO₂ plants LPG/LNG terminals, carriers etc. Chemical equipment and piping Cryogenic systems and oxygen applications 	<ul style="list-style-type: none"> Great variety of threaded or flanged connections Valve sizes from 3/8" through 1 1/2" Broad set pressure range up to 850 bar / 12328 psig Wide range of materials and options to fit any application Stellited metal sealing for longer product life Soft seat for superior tightness Single trim for steam, gas and liquid

Type 437

Type 459

Type 441

High Performance Series 441, XXL, 444, 441 Full Nozzle, 458

Flanged safety valves with especially high capacity for their size. With a large quantity of valve sizes, pressure ranges and product options, they have proven themselves as a universal safety valve for many applications.

Applications	Product features
<ul style="list-style-type: none"> Heat exchanger Chemical equipment and piping General steam installations All industrial applications independent from the medium Air/gas compressors and pumps 	<ul style="list-style-type: none"> Great variety of types, materials and options to fit any application Valve sizes from DN 20 through DN 400, 1" through 16" Flange connections according to DIN EN, ANSI/ASME and other High capacity compared to the API requirements Standard metal sealing Single trim for steam, gas and liquid

Type 485

Type 483

Type 484

Clean Service Series 48x

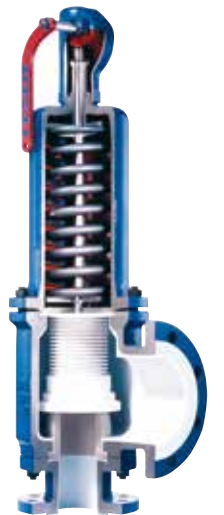

Safety valves for the food, beverage and pharmaceutical industries that meet all the relevant standards and regulations such as DIN 11866 or ASME BPE.

Applications	Product features
<ul style="list-style-type: none"> Pharmaceutical industry Breweries Food and beverage industry Cosmetic industry 	<ul style="list-style-type: none"> Valve sizes DN 25 through DN 100, 1" through 4" Great variety of aseptic connections (e.g. clamps, flanges) and option to fit any application Materials: Stainless steel 1.4404 / 316L, 1.4435 / 316L and special Minimum dead space design and flush-mounting capability Soft seat (FDA compliant elastomers) for superior tightness Gap and crevice free design of internals Elastomer bellows for protection of the hard to clean parts Surface grades according to ASME BPE-2002 and DIN 11866 Single trim for steam, gas and liquid

Critical Service Series 447, PTFE-lined 546, 449

PTFE-lined flanged safety valves for corrosive media such as chlorine, acids, and lyes. With their highly resistant lining they offer a safe solution for corrosive media.

Applications	Product features
<ul style="list-style-type: none"> Corrosive or aggressive chemicals Chemical equipment and piping Chlorine manufacture and processing Reducing acids (e.g. hydrochloric acid, acetic acid) Alkalis or caustic service MDI systems 	<ul style="list-style-type: none"> Valve sizes DN 25 through DN 100, 1" through 4" Flange connections according to DIN EN, ANSI/ASME and other Body is resistant against most chemicals by special coating PTFE lining or special metals A PTFE or metal bellows protects the bonnet area against product influences Smooth inside surface avoid adherence of corrosive matters Single trim for gas and liquid

Type 447

Type 429

Modulate Action Series 429, 433

Flanged safety valves with a standard or proportional opening characteristic. They minimize medium loss when opening and are used for thermal relief applications, liquid service and protection from pressure peaks.

Applications	Product features
<ul style="list-style-type: none"> Thermal expansion Reciprocating compressors and plants with pulsating operating pressure Heat transfer oil systems Protection of liquids Overflow operation Mechanical engineering (OEM) 	<ul style="list-style-type: none"> Great variety of materials and options to fit any application Valve sizes DN 15 through DN 150, 1/2" through 6" Flange connections according to DIN EN, ANSI/ASME and other Low overall height and low weight One connection size for inlet and outlets Single trim for gas and liquid

Product Range

Product Range

Type 810

High Efficiency
Series 800 – Pilot Operated Safety Valve

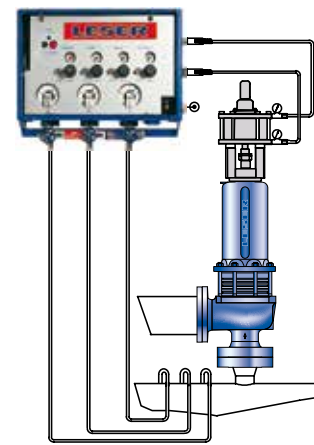

Pilot Operated Safety Valves are employed especially for conditions where the difference between set pressure and closing pressure is very small and in cases of high back pressure.

Applications	Product features
<ul style="list-style-type: none"> Oil and gas production, onshore, offshore Refinery (Oil and gas processing) Gas distribution 	<ul style="list-style-type: none"> Valve sizes DN 25 through DN 200, 1" through 8", Orifice D through T Materials: 1.0619, 1.4408, WCB, LCB, CF8M Full bore for higher capacity based on nominal size. Integrated tubing reduces danger of freezing, damage or leakage. Integrated backflow preventer improves versatility of standard model.

High Efficiency
Series 700 – Supplementary Loading System

Supplementary loading systems provide optimal tightness right up to set pressure and improved protection for high temperature media and high set pressures.

Applications	Product features
<ul style="list-style-type: none"> Steam producers Paper mills Sugar refineries 	<ul style="list-style-type: none"> Adjustable opening and reseating pressure difference for adjustment to plant situation. Decoupling of control system and safety valve; this means that safety valves with supplementary loading can also be used under extreme conditions such as e.g. temperatures above 500 °C or contaminated fluids. The triple redundancy of pressure tapping and regulation guarantees the maximum possible reliability. The Series 700 can also be fitted to competitor safety valves to ensure a stable system operation.

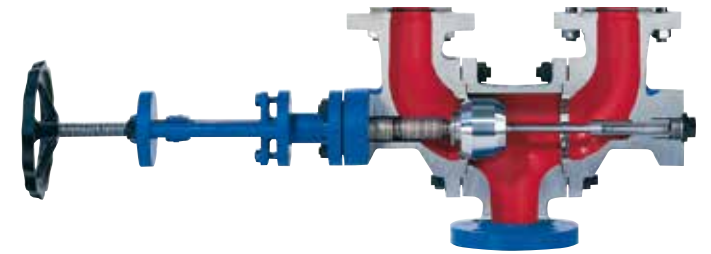

Series 700

Best Availability
Type 310 XXL – Change-over Valve

Change-over valves allow uninterrupted plant availability which increases plant productivity.

Applications	Product features
<p>Change-over Valves are used in plants which cannot or should not be switched off such as:</p> <ul style="list-style-type: none"> Storage tanks for industrial gas Bitumen plants Oil fields Ethylene plants Refineries 	<ul style="list-style-type: none"> Uninterrupted operation Simple handling Heavy-duty design

Type 310

Best Availability
Series 350 – Safety Valve – Bursting Disc Combination

A bursting disc safety valve combination meets the highest tightness requirements and ensures controlled operation after a bursting disc bursts.

Applications	Product features
<p>The combination of safety valve and bursting disc is the solution for the following applications:</p> <ul style="list-style-type: none"> Protection of the safety valve from corrosion or coatings. Protection from operating conditions which could impair the functionality of the safety valve. Safeguarding of the process with the highest possible tightness. Preventing a complete media loss after the bursting of the bursting disc. Avoidance of an uncontrolled shutdown of a plant after the bursting of the bursting disc. Achieving cost advantages for aggressive media. 	<ul style="list-style-type: none"> Conformance to highest tightness requirements. Combination of advantages of safety valve and bursting disc (TUEV certified connection). Controlled operation after bursting of bursting disc.

Series 350

Key Customer Benefits

Longterm global references

- Recognition in the market**
More than 2,000,000 installed safety valves
- Qualified by customers**
LESER is on the approved vendor list of more than 200 customers
- Global approvals**
LESER safety valves are approved according to PED, ASME VIII and more than 10 more codes and standards

Application-based solutions

- Safety valves for all industrial applications**
Complete range up to 850 bar and 16" x 20"
- Standardized industry solutions**
90% back pressure, -196 °C medium temperature, zero dead space - LESER has the answer to application requirements

Low lifecycle costs

- Attractive pricing**
For safety valves and spare parts
- Single Trim**
Same trim parts for steam, gas and liquid service
- Spare parts availability**
LESER Original Spare Parts Kits and LESER Authorized Repair Centers make maintenance quick and easy

Key Customer Benefits

Services around the safety valve

- Easy ordering**
More than 100 sales engineers, EDI and webshop for easy quotations and ordering
- Best fit supply chains**
7 supply chains for different customer needs
- Time saving documentation**
35 standard tests and inspections with standardized documentation
- Webservices**
Certificates, spare parts lists and order status available online

Reliable valve function

- Durable Design**
Eight critical components strengthened for longer life
- Tight Finish**
50% less medium loss
- Straight alignment**
Two guiding points for less galling
- Definitive setting**
First audible discharge setting for higher operating pressures

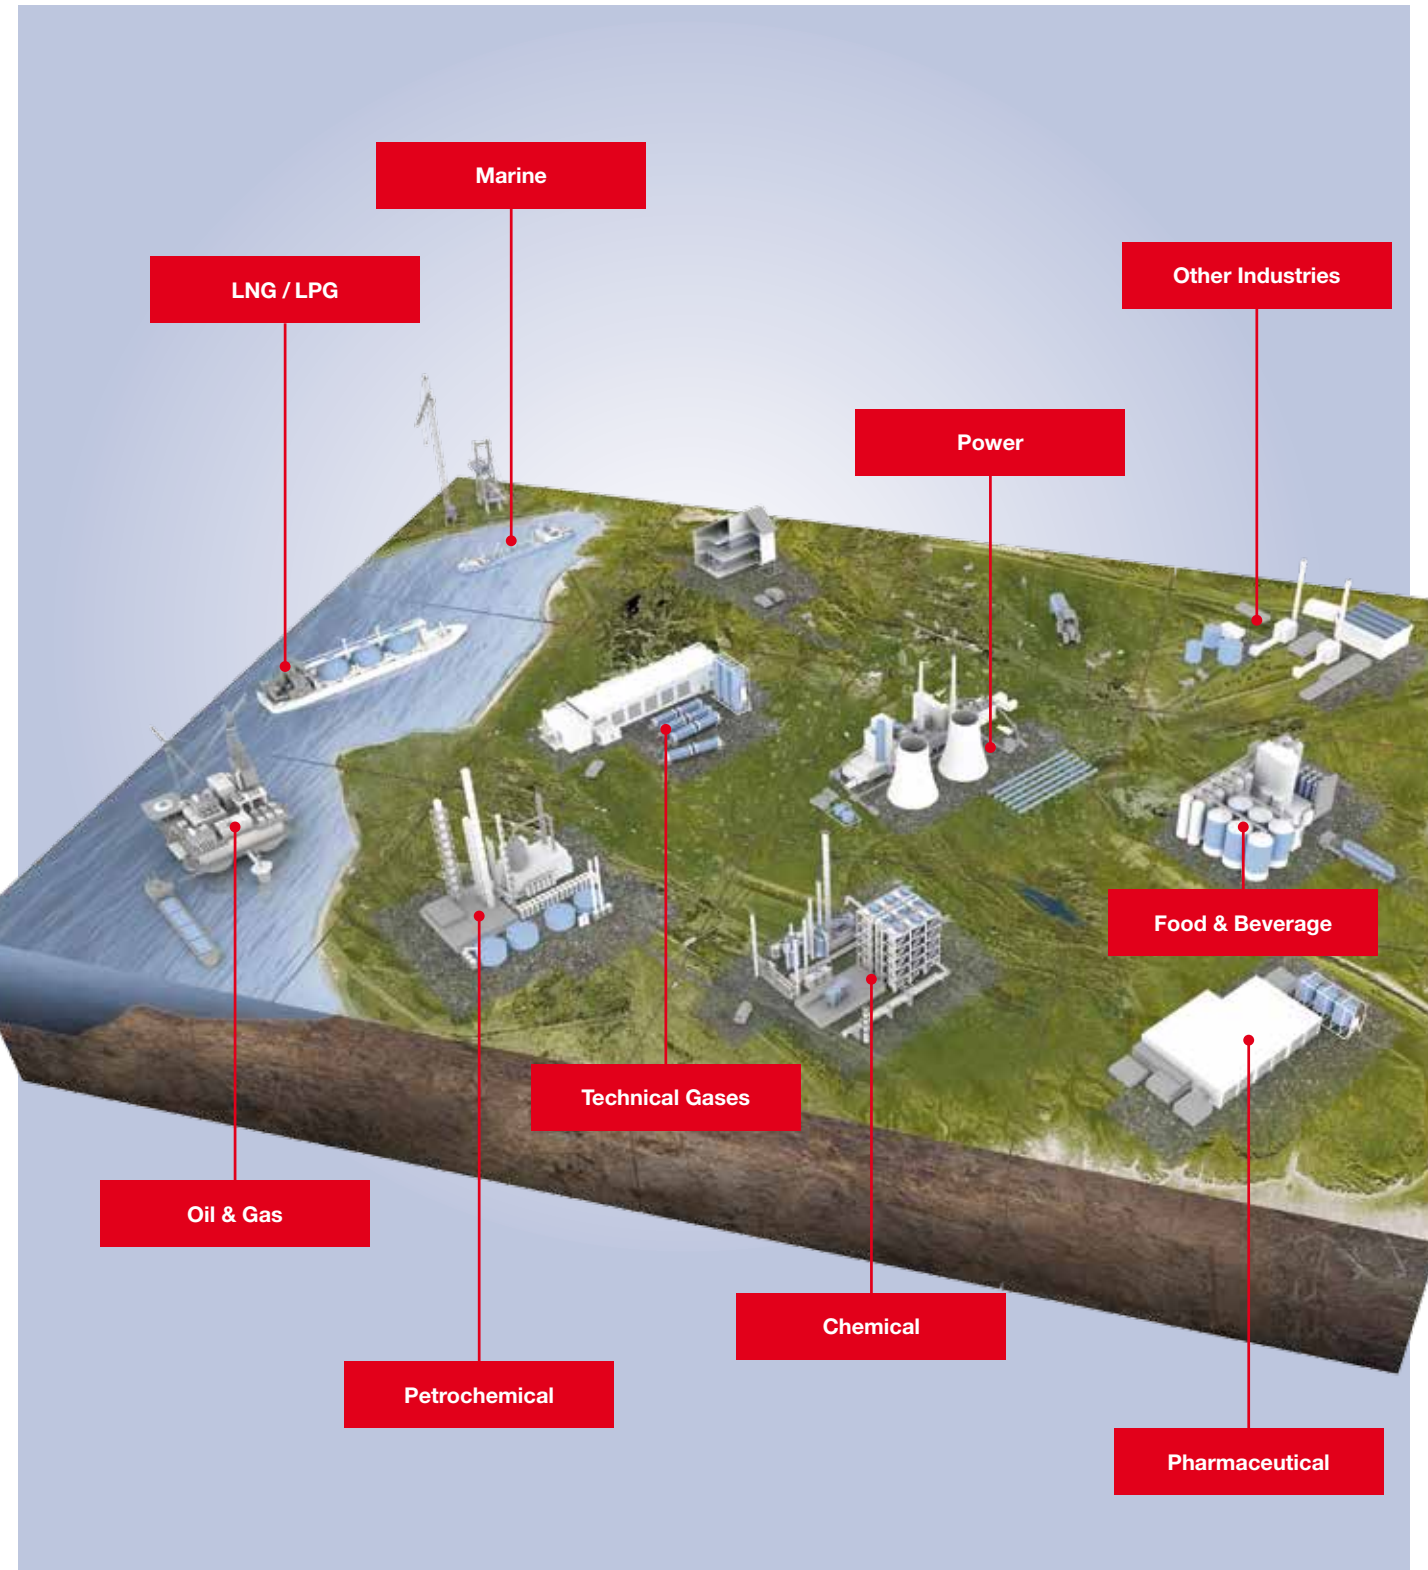

Passion for technology

- Quality in series**
5 Mio. EUR investments in modern serial production every year
- Constant flow of innovation**
More than 50 R&D engineers, CFD simulation and the most advanced test lab in the world of safety valves

Industry Groups

The references in this book are clustered by industry to show that LESER understands the different requirements of different industries.

The overview below should help you to find the relevant industry section for you.

Industry Groups

Chemical

Production of all kinds of chemicals (including crop science). Excluded: companies that produce refined petroleum-based products like gasoline, kerosene, etc. (belongs to petrochemical industry).

Pharmaceutical / Healthcare, Cosmetics

Production of products related to pharmaceutical industry.

Petrochemical / Downstream: Refining

The Petrochemical industry is the processing of raw material from the upstream portion of the industry including the refining and processing of petroleum and hydrocarbon based materials.

Oil & Gas / Upstream: Exploration, Transportation

The Oil & Gas industry covers the processes associated with exploration, extraction and the transportation (pipelines) of a variety of products including petroleum and natural gas.

Food & Beverage

Production of beverage and other food-related products, like milk industry, breweries, etc.

Technical Gases / Air Separation

All applications that are related to the production, distribution (transmission) and handling of technical gases (nitrogen, oxygen, etc.).

Power / Power Stations, New Energy

Generation of energy, either by conventional power stations driven by coal, gas and petroleum, or new technologies like wind, water, sun and nuclear. Excluded in this industry is energy distribution, which is included in HVAC.

Marine / Shipbuilding, Shipyards

The industry that covers the marine related business, such as shipyards and shipbuilding.

LNG / LPG

All applications that are related to the production, distribution (transmission) and handling of liquified natural gas (LNG) and liquid petroleum gas (LPG).

Mining

All segments related to the mining, processing and transportation of mined product.

Establishing longterm relationships with our global customer base is a priority at LESER as safety valves are a matter of trust. With more than 2,000,000 installed safety relief valves worldwide and approximately 10,000 active customers, LESER is the largest safety relief valve manufacturer in Europe and the third largest globally. This chapter will focus on the following:

Industries & Customers:

a selection of global references defined by industry classification (i.e. Chemical, Oil & Gas, Petrochemical, Food & Beverage, Pharmaceutical, etc.). The Spotlights at the beginning of the chapter highlight the LESER solutions for different customer requirements.

Projects:

a selection of projects equipped with LESER safety relief valves identifying specific customer requirements.

Original Equipment Manufacturers (OEMs):

a selection of OEMs from the global market who rely on LESER safety relief valves to be installed on their compressors, heat exchangers, CO₂ tanks, blowers, and pumps to provide overpressure protection for personnel and equipment. If you require additional information or a specific reference not listed in this selection, please contact sales@leser.com.

Industries & Customers

Spotlight: Anadarko Petroleum Corp. / USA

Industry / Application: Oil & Gas / Upstream & Gas Transmission
 LESER Product / Solution: High Efficiency, POSV
 Customer since: 2013
 Quantity of Valves Supplied: 45

Founded in 1959, Anadarko Petroleum Corporation is an American oil and gas exploration company employing nearly 6,000 people worldwide. Partnered with Spitzer Industries (OEM) and Audubon Engineering (EPC), Anadarko Petroleum Corp. used these Pilot Operated Safety Valves on well pad skids used for drilling / fracking in the Delaware Basin of West Texas.

- LESER supplied (45) 4" x 6" Pilot Operated Safety Valves.
- Split shipments were utilized to ship valves in a timely manner.
- All 45 valves shipped within 8 weeks.

Spotlight: Sunoco Inc. / USA

Industry / Application: Oil & Gas / Hydrocarbon separation
 LESER Product / Solution: API, Compact Performance, High Efficiency
 Customer since: 2010
 Quantity of Valves Supplied: 102

Founded in 1886, Sunoco is one of the world's largest oil, gas, and petrochemical companies, primarily distributing gasoline to the American market. Sunoco's Marcus Hook Facility partnered with CB&I to provide 102 LESER safety relief valves via three different projects to support the SXL Mariner East Project in Pennsylvania. CB&I is one of the largest engineering, procurement, and construction companies in the world specializing in projects related to the oil and gas industry.

- Three projects involving LESER safety relief valves - two from CB&I in Chicago, IL and one from CB&I in Tyler, TX.
- Split shipments and quick delivery were needed to meet installation schedules.
- Valves are used in the De-Ethanizer and auxiliary (pre-heater, storage, etc) units.

Spotlight: NETZSCH / Brazil

Industry / Application: Oil & Gas and Petrochemical / Pumps
 LESER Product / Solution: Compact Performance / High Performance
 Customer since: 2006
 Quantity of Valves Supplied: 1,536

The NETZSCH company in Brazil belongs to the Erich Netzsch Holding family business and is its largest subsidiary outside of Germany. Their range of pumps is aimed toward the oil & gas, food & beverage, and drug and milk derivatives industries, and includes centrifugal, sanitary, lobe, high-viscosity, vertical and dosifier pumps, and also Progressing Cavity Pumps.

- NETZSCH of Brazil manufactures and sells Progressing Cavity Pumps throughout the entire market of the Americas.
- NETZSCH choose LESER as the primary and preferred supplier of safety relief valves due the product quality, flexibility in pre-sales support required, short delivery times, and the competitive pricing offered.
- The 1,500-plus safety relief valves supplied to date were acquired through 500 different orders placed consistently over the term of the business relationship.

Spotlight: ARAUTERM / Brazil

Industry / Application: Food & Beverage / Boilers
 LESER Product / Solution: Compact Performance / High Performance
 Customer since: 2002
 Quantity of Valves Supplied: Approx: 580

ARAUTERM, established in south Brazil in 1988, is focused on the manufacture of small to medium boilers for different industrial processes, within laundries, hotels and the food and beverage industries.

- ARAUTERM continually selects LESER as the preferred supplier of safety relief valves due the competitive pricing, short delivery times, and flexibility in pre-sales support and technical consulting.
- Excellent, long-term working relationships helped to secure past orders and will continue to win orders in the future.
- The nearly 600 safety relief valves supplied to date were acquired through 200 different orders placed consistently over the term of the business relationship.

Industries & Customers

Spotlight: Frames Petrobras / Netherlands / Brazil

Industry / Application: Oil & Gas / FPSO
 LESER Product / Solution: API, Compact Performance, Alloy Concept
 Customer since: 2011
 Quantity of Valves Supplied: 250

Founded in Brazil in 1953, Petrobras is an international oil & gas corporation with a production of approximately 2 million barrels of oil per day. Partnered with Petrobras, Frames (based in the Netherlands) offers engineered products and solutions for FPSO. The specific application for the LESER project was an offshore oil application for FPSO.

- Short delivery timeframe, pricing, and customer service secured these orders.
- LESER products installed on skids for certain parts of topsides modules.
- Four projects included chemical injection skids with API and Compact Performance valves; two other projects included gas dehydration units.
- Econosto, the local partner/representative, has an excellent, long-term relationship with Frames resulting in repeat orders.

Spotlight: Air Liquide Iter / France

Industry / Application: Power / Fusion reactor
 LESER Product / Solution: API, Compact Performance, High Performance
 Customer since: 2004
 Quantity of Valves Supplied: 210

Located in France, Iter is the center of a large scientific experiment focused on fusion technology using magnetic fields. The goal of the project is to determine the possibility of creating fusion energy and power for practical uses as opposed to using nuclear reactors, which produce more waste (energy, resources, environmental, etc). The cryogenic plants are cooled with liquid helium lines provided by Air Liquide which are supplied with LESER safety relief valves for protection.

- Iter offers a future-oriented solution to support the world's energy needs.
- The first package provided to Iter consisted of approximately 210 valves; an additional two projects of equal size are expected.
- LESER is a major supplier for Air Liquide and offered competent consulting to select the correct safety relief valves for the application per the specifications of the customer.

Spotlight: Petroleum Development Oman (PDO) / Oman

Industry / Application: Petrochemical / Sludge Pipeline
 LESER Product / Solution: API in Duplex
 Customer since: 2010
 Quantity of Valves Supplied: >10

Petroleum Development Oman (PDO) is Oman's largest producer of oil & gas focusing primarily on the exploration, development and transportation of hydrocarbons. PDO ordered the extension of a disposal facility for sludge and decided to build a 6" pipeline from the sludge pit to the tanks. Protecting this pipeline from overpressure, LESER was able to offer safety valve type API 526, Orifice F made from Duplex.

- The valves were manufactured according to NACE MR0175/ISO 15156 with ASME certificate, following Shell SPE 77/302 specification.
- LESER performed and delivered the following tests: ferrichloric-test, microstructure analysis, radiography of the body, test -50 °C, heat treatment, and MTC according to EN 10204 for body, bonnet, disc and nozzle.
- All valves were delivered with certification and analysis testing documentation with very short lead times.
- The API Alloy Concept with standardized high alloy and duplex materials enabled the fast and efficient execution of the order.

Spotlight: Bornemann Pumps / Germany

Industry / Application: Oil & Gas / Multiphase Pumps
 LESER Product / Solution: High Efficiency
 Customer since: 25+ years
 Quantity of Valves Supplied: 8

Founded in 1850, Bornemann Pumps has been a long-standing customer of LESER safety relief valves, using our products in support of their pumps and systems for the oil and gas, petrochemical, chemical, marine, and pharmaceutical industries, among others. For this specific application, this OEM built multiphase pumps for export to a country in Latin America. Requirements included the ability to support high temperatures (approximately 100 °C) and a high backpressure in relation to set pressure. The LESER product solution was our High Efficiency Pilot Operated Safety Valve as it works independently of backpressures.

- Specific solution: LESER POSV type 821 with flange class 900 x 300.
- Additional accessories based on customer requirements included 3-layer coating in special color for optimized corrosion protection and 3.2 inspection certificate for set pressure.
- Selection of product, short delivery time, and advanced technical consulting secured this order.

Industries & Customers

Chemical Industry

End-User	Country	EPC / OEM	Name of Project	LESER Product	Customer Requirement	Qty of Valves
Atanor	Argentina	-	Ampliacion Ingenio Concepcion	High Performance	16" x 20" - 150#	5
BASF	China	-	MDI plant	API, Compact Performance, Critical Service	-	265
Chinacoal Mengda Chemical industry Co	China	-	Mengda Coat-Chemical project	API, High Performance XXL, High Efficiency	Coal Conversion Unit	125
Fujian Meide Petrochemical Co.,Ltd.	China	-	LCN20258-261	API	Tank farm	105
Hengli Dalian Company	China	-	Dalian Hengli PTA	API	High alloy materials in large quantities (CF3M and Hastelloy body)	417
Inner Mongolia Bodashidi Co., Ltd.	China	Stamicarbon	Urea plant	API	Protection of urea synthesis section with corrosive and crystallizing medium	-
LANXESS (Changzhou) Co., Ltd.	China	-	LANXESS coating project	API, Compact Performance, High Efficiency	Pilot-operated safety valves	244
Oates Technologies Co. Limited	China	-	Ningbo Yisheng PTA	API	High alloy materials in short delivery time	148
Shaaxi	China	-	Shaanxi Alu	API	Large sizes	74
Xiang Lu Petrochemicals (ZhangZhou)	China	-	Xianglu PTA	API, High Performance XXL	High alloy materials for very large safety valves	397
BASF	Germany	M+W process Technologies	-	High Performance, Compact Performance, Modulate Action	Extensive testing e.g. Huey, corrosion tests	25
BASF	Germany	Lurgi	Expansion H ₂ plant	High Performance, High Efficiency SLS	Long distance for SLS	45
CFI USA	Germany	ThyssenKrupp Uhde	Donaldsonville plant	API, High Performance, Compact Performance	Safety valves for urea plant	150
Evonik Belgium	Germany	Evonik Germany	Zephir project	High Performance, Modulate Action	New chemical plant in Belgium	30
SKW Piesteritz	Germany	Räcklebe & Totz	Urea plant	API, High Efficiency (SLS)	Corrosive media, increase in plant operating pressure	20
Vinnolit	Germany	-	PVC plant	High Performance, Best Availability (Bursting Disc)	-	17
Petrochemical Industries Company (PIC)	Kuwait	-	Revamp Project	API	Urea Synthesis Section	9
Various	Netherlands	Stamicarbon	Urea plants	Urea	Urea synthesis valves made from Safurex	> 100
Qatar Solar Technologies	Qatar	Punj Lloyd	QSTec Polysilicon Project	-	-	-
Tomskneftchim	Russia	Tecnimont	Tomsk	Compact Performance, API	-	100
LANXESS	Singapore	-	Butyl rubber	API, Compact Performance, High Performance, High Efficiency, Pilot Operated Safety Valve, Critical Service	-	100
Wacker	USA	Jacobs Engineering	unnamed	API, High Performance, Compact Performance, POSVs, Rupture Discs	Integral inlet and outlet for Compact Performance, free of oil and grease cleaning	2,000

Chemical Industry

End-User	Country	EPC / OEM	Name of Project	LESER Product	Customer Requirement	Qty of Valves
Bechtel National	USA	Bechtel Parsons	unnamed	API, Compact Performance	Special alloys, short lead times	150
BASF Freeport	USA	Zachry Industrial	BASF Freeport	API, Compact Performance, High Performance	Short lead times	30
Celanese	USA	Black & Veatch	Acetate Expansion	API, Compact Performance, High Performance	Short lead times	20
Holston Army Depot	USA	BAE Systems	Holston Plant	API, Compact Performance	Short lead times	80

Petrochemical Industry

End-User	Country	EPC / OEM	Name of Project	LESER Product	Customer Requirement	Qty of Valves
J.F. Secco	Argentina	-	Campo Duran	API, High Efficiency	4" x 6" - 600#	15
YPF	Argentina	-	Proyecto Recambio de Valvulas de Seguridad	API, Compact Performance	-	98
Heide Refinery	Germany	-	New steam supply	High Efficiency (SLS)	Increase plant efficiency with supplementary loading system (SLS)	15
OMV Romania	Germany	PSE Engineering	Refinery	API	-	-
OMV	Germany	CAC Chemieanlagenbau Chemnitz	Butamax	API	-	80
PCK Refinery	Germany	-	Refinery expansion	-	Refinery expansion with SV/COV combinations acc. to MiRO standards	> 50
Pertamina	Indonesia	GS Engineering & Construction	Cilacap Refinery RFCC	API, Compact Performance	Migas Inspection	200
KOC	Kuwait	GS Engineering & Construction	KOC Wara - Pressure Maintenance Project	API, Compact Performance, POSV	Full Duplex POSV	100
Petrochemical Industries Company (PIC)	Kuwait	PIC	-	Urea valves	Replacement of urea valves	-
-	Russia	Toyo Korea	EB	API, COV, Compact Performance	Change Over Valve Combinations	200
Petro Rabigh (Saudi Aramco and Sumitomo Chemicals)	Saudi Arabia	Saipem Snamprogetti	Rabigh II	API	API safety valves with Balanced Piston Design	100
IRPC	Thailand	GS Engineering & Construction	UHV	API, Compact Performance, POSV	Cryogenic Test	350
PTT	Thailand	POSCO E&C	Phenol Train 2	API, Compact Performance	-	180
HollyFrontier	USA	Lauren Engineering	Woods Cross	API, Compact Performance, POSV, High Performance XXL	Documentation	94
Motiva Shell	USA	N/A	N/A	API	Special alloy	6

Projects

Marine Industry

End-User	Country	EPC / OEM	Name of Project	LESER Product	Customer Requirement	Qty of Valves
Ecovix Construções Oceanicas	Brazil	Ecovix	Replicantes FPSO Hulls	API	Special Materials	192
Halliburton	USA	W&O Supply	N/A	Critical Service	PTFE lining	6

Oil & Gas Industry

End-User	Country	EPC / OEM	Name of Project	LESER Product	Customer Requirement	Qty of Valves
Petrobras	Brazil	–	Replicantes FPSO	API	Special Alloy Materials	570
Petrobras	Brazil	SPS	TECAB	API	Special Alloy Materials	280
Petrobras	Brazil	TUC	COMPERJ Utilities	API	Special Alloy Materials	40
Petrobras	Brazil	Potencial	Revap	API	Short Delivery Times	78
Petrobras	Brazil	CNCC	RENEST	API	Special Alloy Materials	580
Petrobras	Brazil	Emerson	COMPERJ MAC	API	Special Alloy Materials	970
Petrobras	Brazil	Fores Engineering	–	Compact Performance	–	70
SOBEGI (Total Group)	France	Technip France	Gas treatment	API, Compact Performance	Testing requirements	94
NRW North West Redwater Canada	Germany	Air Liquide Global E&C	Oil sands	API	Special Alloy Materials	570
Saudi Aramco	Italy	Peroni	Pumps	Compact Performance	Local content requirements in Saudi Arabia	28
Saudi Aramco	Italy / Saudi Arabia	Techint	Onshore crude oil facility	API	Balanced piston safety valves	37
Kuwait Oil Company (KOC)	Kuwait	HEISCO	–	–	LP Separator & Production Manifold Skid	–
Petronas	Malaysia	UOP Malaysia	Amine Pilot Plant	API	–	–
Petronas Carigali	Malaysia	Petrofac E&C	WEST Desaru MOPU	API, High Efficiency	–	–
Petronas Carigali	Malaysia	Petrofac E&C	BEKOK-C Restoration	API, Compact Performance, High Efficiency	–	–
SBM Atlanta	Malaysia	Prosep AP	SHELL Stone Disconnectable FPSO	API, Compact Performance, POSV	Cryogenic Test	350
Shell Sabah	Malaysia	Prosep AP	Malikai	API	Shell specification	–

Oil & Gas Industry

End-User	Country	EPC / OEM	Name of Project	LESER Product	Customer Requirement	Qty of Valves
Unnamed	Multiple	Leobersdorfer Maschinenfabrik (LMF)	API compressors	API	12 API valves with 3.2 certificates and 1.4547 interior parts	several orders
Petrobras	Netherlands	Frames	FPSOs	API	FPSO modules	–
Oil Tanking ODF JELL Terminal & Company	Oman	L&T, Electromec LLC	–	API, Compact Performance	Pigging line and associated Facility	5
Petroleum Development Oman (PDO)	Oman	Galfar Engg	Burhaan & Harmal HPG Wells, & ODC Projects	API	High alloy configurations for crude oil	several orders
Petroleum Development Oman (PDO)	Oman	STS-Oman	Ghaba North Oman EMC Project	API	High alloy configuration	16
Dolphin Energy Qatar	Qatar	L&T	Export Gas Compression Facilities Upgrade Project	API, Compact Performance, High Efficiency	–	–
Rosneft	Russia	Walter Tosto	Samara	API, Best Availability	–	30
Saudi Aramco	Saudi Arabia	Aramco	Ras Tanura	API, Compact Performance	Balancing Piston valves	14
Saudi Aramco	Saudi Arabia	Saipem / Peroni Pompe	Hasbah & Arabiyah	Compact Performance	Special materials and connections	30
Saudi Aramco + SUMITOMO	Saudi Arabia	SAIPEM, ITALY	RABIGH PHASE II	API Balanced Piston	–	289
GASCO	UAE	Samsung Engineering & Construction	Shah Gas	API, Compact Performance, POSV	Special Materials	250
Takreer	UAE	GS Engineering & Construction	Takreer - Inter Refinery Project	API, Compact Performance	–	250
UOP	USA	UOP	Star Bed PSV	API, POSV	Documentation in Turkish	33
Sunoco	USA	CB&I	Marcus Hook - Deethanizer	API, Compact Performance, POSV	Documentation	50
Anadarko Petroleum	USA	Anadarko	N/A	POSV	Short lead times	45
Harrison Hub	USA	S&B Engineers	Harrison Hub	API, Compact Performance	Multiple shipments	100
Occidental Petroleum	USA	CB&I	Oxy Plant	POSV	Short lead times	4
Petrobras	USA	UOP	P-74/P-75/ P-76/P-77 FPSO Platforms	API, Compact Performance, POSV, High Performance XXL	Offshore Painting	48

Projects

Pharmaceutical Industry

End-User	Country	EPC / OEM	Name of Project	LESER Product	Customer Requirement	Qty of Valves
Promaiz	Argentina	-	Planta Alejandro Roca	API, Compact Performance	1/2" x 1" - orifices F-G-J-N-T	51
Fresenius Medical Care	Germany	-	Plant expansion	High Performance	-	22
Hetero Labs	India	-	-	High Performance, Compact Performance	Delivery of high number of valves in only 10 weeks	> 1000
Total	Netherlands	-	Zeeland refinery	API, Compact Performance, High Efficiency	Total specification and prequalification	17
Rosneft Novokuibyshevsk	Russia	direct purchase	Novokuibyshevsk refinery	POSVs, Modulate Action, Compact Performance, API, Best Availability	Pilot Operated Safety Valves in Monel	121
Proctor & Gamble	USA	Sonic Corp.	P&G	Clean Service	Welded clean service	20
Baxter Pharmaceutical	USA	Fluor	Baxter	API, High Performance	N/A	100

Technical Gases Industry

End-User	Country	EPC / OEM	Name of Project	LESER Product	Customer Requirement	Qty of Valves
Hangzhou SERGAS Engineering Co., Ltd	China	Hangzhou SERGAS Engineering Co., Ltd	SERGASLE-SER1311281	API	Air separation	26
Gassco AS	Germany	Linde	Emden Gas Terminal	API	-	27
PDVSA Venezuela	Germany	Linde	Puerto La Cruz	API, High Efficiency (POSV)	Special sourcing and documentation	26
Petronas	Malaysia	Taiyo Nissan	Petronas LNG Train-9	API, Compact Performance	Air separation units	20
Elixir	UAE	Linde	Ruwais / Elixir	-	-	-
Airgas	USA	Airgas	Great Lakes	API, Compact, POSVs	Free of oil & grease cleaning	26
AMCS	USA	AMCS	j-1365	API, Compact Performance, High Performance XXL	Free of oil & grease cleaning	27
Linde	USA	HydroChem	Linde Expansion	API, Best Availability	Changeover valves in combination	20
Linde	USA	Linde	Cold Box	Compact Performance	Low temperature application	20

Food & Beverage Industry

End-User	Country	EPC / OEM	Name of Project	LESER Product	Customer Requirement	Qty of Valves
Cargil Agricola S/A	Brazil	Cargil	Castro Biorefinery	API, Compact Performance	Very short lead times	20
Lotte Korea	Germany	Krones	Lotte Brewery	Clean Service	Very short lead times	20
Samuel Adams	USA	Dennis Group	Sam Adams	API	Overpressure protection	4

Power Industry

End-User	Country	EPC / OEM	Name of Project	LESER Product	Customer Requirement	Qty of Valves
Petrobras	Brazil	Skanska	UTE Sul Fluminense	API	Short Delivery Times	90
Shanghai Electric Power Generation Equipment Co., Ltd	China	-	LCN20205	High Performance XXL	441 XXL valves	-
DLR Deutsches Zentrum für Luft- und Raumfahrt	Germany	Alstom Power	DLR test center	API, Compact Performance	-	-
ADNOC Abu Dhabi	Germany	Siemens	Sha Gas	API	Protecting steam turbines with 526 8T10 in 4 lines, demanding acceptance inspection, special paint	-
SWCC Saudi Arabia	Germany	ThyssenKrupp	Ras Al Khair	API, Compact Performance	Corrosion resistance	> 100
Ministry of Electricity & Water (MEW)	Kuwait	Alghanim International General Trading & Contracting Co., WLL	-	-	Az-Zour South 500 MW Open Cycle Gas Turbine Expansion Project	-
Saudi Electric Company	Saudi Arabia	Daelim	Shoibah CCGP	API	-	8
Göteborg Energi	Sweden	Direct purchase	Biogas plant	API	Test plant with potential for series production	96
SPX Heat Transfer	USA	SPX	N/A	API, Compact Performance	Socket welds, IBR Inspections	192
NextEra Energy	USA	Fluor	Genesis Solar	API	Welded valves, high backpressures	40
California Light & Power	USA	Kiewit	Scattergood Project	API, Compact Performance	Marine / high temperature painting	100
GE Vietnam	USA	GE	GE Wind Energy	Compact Performance	Low temperature / low set pressures	725
TEPCO	Vietnam	Daelim	O-Mon	API	-	-

Projects

Mining Industry

End-User	Country	EPC / OEM	Name of Project	LESER Product	Customer Requirement	Qty of Valves
Vale Inco	Canada	Fluor	OJ-0019	API, Compact Performance, Critical Service	PTFE-lined valves, PMI, documentation	108

LNG / LPG Industry

End-User	Country	EPC / OEM	Name of Project	LESER Product	Customer Requirement	Qty of Valves
CNPC	China	China Huanqiu Contracting & Engineering Corporation	Tangshan LNG Terminal	API	Valves for cryogenic service	120
Several	Germany	TGE Marine Gas Engineering	LNG & LPG carriers	High Performance, Modulate Action, Best Availability	Valves for LNG service	300+
Polskie LNG	Italy / Poland	Saipem / Techint	LNG terminal	API, High Performance	Cryogenic testing	86
Shell / Technip	South Korea	Atlas Copco Energas	Prelude	API, Modulate Action, Compact Performance	Special certifications	39
Various	UK	LGE Process	LPG carriers	API, Compact Performance	Applications for LNG tankers	> 500
Chemtex	USA	Chemtex	CT0038.0021	API, Compact Performance	Low temperature valves for cryogenic applications	15
Shell	Various	Atlas Copco Energas, AEL, Neumann & Esser, Siemens	Prelude FLNG	API, Compact Performance, Modulate Action	Pioneer in FLNG technology, classification societies, offshore use	39

Other Industries

End-User	Country	Industry	EPC / OEM	Name of Project	LESER Product	Customer Requirement	Qty of Valves
CMPC Celulose Riograndense Ltda	Brazil	Pulp & Paper	Poyry	Guaiba 2	High Performance	High Capacity	41
Klabin S/A	Brazil	Pulp & Paper	KSH Consult. Eng. Ltda	Puma	High Performance, API	High Capacity	23
Rio Claro Agroindustrial	Brazil	Ethanol	Rio Claro	Usina Rio Claro	API, Compact Performance	Short lead times	32
Usina Conquista do Pontal	Brazil	Ethanol	Conquista do Pontal	Conquista do Pontal	API, Compact Performance	Short lead times	27
Shaanxi Alu	China	Aluminium	-	-	API	Large API valves	50
Saline Water Conversion Corporation (SWCC)	China	Water	Sinopec international Petroleum Service Co.	LCN20312	API	Sea water desalination	103
DESY Deutsches Elektronen-Synchrotron	Germany	Research institute	-	Extension	High Performance	Cryogenic service	41
SWCC	Saudi Arabia	Water	Hanwha	Yanbu 2	Yanbu 2	API	-

OEM

The following list shows only a selection of OEMs who rely on LESER safety valves to protect their processes and equipment.

Company	Country	Application / Main Products
Schoeller-Bleckmann Nitec	Austria	Oilfield equipment, Pumps
ZETA Bio Pharma	Austria	Pharmaceutical equipment
Desmet Ballestra	Belgium	Chemical equipment
Mayekawa	Belgium	Refrigeration technology
UOP LLC	Belgium	Catalyst solutions
Arauterm Equipamentos Ltda	Brazil	Boilers
Asvotec Thermoindustrial Ltda	Brazil	Waste Heat Recovery Units
Fabricadora de Bombas Ind e Com.	Brazil	Pumps
Fluid Brasil Sistemas e Tec. Ltda	Brazil	Filter Systems
Gascat Ind e Comercio Ltda	Brazil	Filters, Boilers
HBR Equipamentos Ltda	Brazil	Compressors Systems
MKG Equipamentos Ltda	Brazil	Filters
Neogás do Brasil Gás Natural Ltda	Brazil	Natural Gas Vessels
NG Metalúrgica Ltda.	Brazil	Vessels, Destilators to Ethanol Industry
Omel Bombas e Compressores Ltda	Brazil	Pumps, Compressors
Turbimaq Turbinas e Maquinas Ltda	Brazil	Turbines
Vibropac Ind. E Comercio Ltda.	Brazil	Pumps
Alco Gas & Oil Production Equipment	Canada	Oil & Gas processing equipment
Enerflex	Canada	Gas Compression & Treatment
Propak Systems	Canada	Oil & Gas production packages and modularized processing plants
ThermoDesign Engineering	Canada	Oil & Gas processing facilities
ATLAS Copco	China	Compressors
Dongfang Boiler	China	Boilers
Dongfang Turbine	China	Turbines
Shanghai Turbine	China	Turbines
Shandong Kerui	China	Compressors
Yantai Jereh	China	Compressors
HOWDEN B.C.	France	Compressors
Milton Roy	France	Dosing pumps
Oeltechnik-France	France	Lube oil consoles
Aerzener Maschinenbau	Germany	Compressors, Blower
ATLAS Copco	Germany	Compressors
Bauer Kompressoren / Unicomp	Germany	Compressed Air Systems
Baumgarte Boiler Systems	Germany	Incineration plants
Bosch Industriekessel (LOOS)	Germany	Boilers
Cofely	Germany	Refrigeration systems
Feluwa Pumpen GmbH	Germany	Hose Pump
Gea Lyophil GmbH	Germany	Vacuum-Freeze, Dryer-Sterilizer

Company	Country	Application / Main Products
Hennecke GmbH	Germany	Polyurethane System
Joh. Heinr. Bornemann GmbH	Germany	Twin screw pumps, eccentric screw pumps
Johnson Controls (YORK)	Germany	Refrigeration systems
Krones	Germany	Machinery for the food and beverage industry
Krytem GmbH	Germany	Pumps for Liquid, Cryogenic Gases
Leistritz GmbH	Germany	Offshore Systems, Oil Production
Lewa	Germany	Pumps
Linde AG, Engineering	Germany	H ₂ Systems, Air Separation
MCE-Industrietechnik	Germany	Biotech plants
Messer Group	Germany	Air separation, Systems for Industrial Gases
Neumann & Esser Deutschland GmbH	Germany	Piston Compressor
Pall Corporation	Germany	Process equipment for filtration, separation & purification solutions.
Prominent Dosiertechnik	Germany	Dosing Pump
Ruland Engineering & consulting	Germany	Process Technology
Seepex GmbH	Germany	Pumps
SPX Cooling GmbH	Germany	Steam-Cooling-System
Tectrion GmbH	Germany	Maintenance Service
Uraca	Germany	Pumps
Voith	Germany	Turbines
BURCKHARDT COMPRESSION	India	Compressors
KIRLOSKAR PNEUMATIC CO.LTD.	India	Compressors
SS ENGINEERS	India	Boilers
THERMAX LIMITED	India	Boilers
TRIVENI TURBINES LTD.	India	Turbines
CFT	Italy	F&B machines
Sanco	Italy	Fire Protection and Safety Systems
Siad Macchine Impianti	Italy	Technical Gases skids
Tecnox	Italy	Pharma skids
Exterran	Middle East	Oil Production Equipment
Frames	Netherlands	Skids
Howden Thomassen	Netherlands	Compressors
Hoerbiger	Norway	Air compressors
Al Hassan	Oman	Oil & gas skids
Arabian Industries	Oman	Chemical Injection, tanks
Orbital Projects & Services	Oman	Chemical Injection, fabrication
Special Technical Services	Oman	Chemical Injection, Water injection, Manifolds
Tasnee	Oman	Feed separators
CONFIND S.R.L.	Romania	Pumps, vessels

OEM

Customers Approvals / Prequalifications

Company	Country	Application / Main Products
Lewa	Singapore	Pumps
LITOSTROJ POWER D.O.O.	Slovenia	Water turbines
Airgas Compressors	South Africa	Compressors
Atlas Copco	South Africa	Compressors
Alderley	UAE	LNG metering, gas metering, liquid metering
Global Process Systems	UAE	Acid gas treatment, Fuel gas treatment, oil & gas / water separation
Lewa Pumps	UAE	Metering pumps, process pumps, centrifugal pumps
Milton Roy	UAE	Metering pumps, mixers, controllers
Petronash	UAE	Chemical Injection, Effluent treatment, Modular package, Well head control panels
Process Group	UAE	Gas processing, Oil treatment, Water treatment
Proserv	UAE	Chemical Injection, hydraulic power units, well head, sub sea sampling
Specialist Services	UAE	Skid packages, offshore refurbishment
TPC	UAE	Fuel gas conditioning, chemical injection, well head control panels, bio side injection
Honeywell Normalair-Garrett	United Kingdom	Aircraft components
Agilyx	USA	Plastic to oil recycling systems
Cryoquip	USA	Natural gas fuel systems for ships
Enerflex	USA	Gas Compression & Treatment
Exterran	USA	Gas Compression & Treatment, Oil Production Equipment
Gaumer Process	USA	Heater Systems, Heat Exchangers
KHS	USA	Beverage filling and packaging systems
Kobelco Compressors America	USA	Compressor systems
Lube Power	USA	Lube oil systems
Membrane Technology and Research (MTR)	USA	Natural gas processing skids
Pall Corporation	USA	Process equipment for filtration, separation & purification solutions.
Paul Mueller Company	USA	Stainless steel tanks and processing systems
Siemens	USA	Oxidation systems
Tersus Solutions by CO ₂ Nexus	USA	CO ₂ dry cleaning machines
Tetra Pak Processing Equipment	USA	Food & Beverage packaging systems
Thermal Engineering International	USA	Heat exchanger systems
UOP	USA	Modular systems
Veolia Water Solutions & Technologies	USA	Evaporation and crystallization systems
Wahlco	USA	Environmental systems for pollution control

Prequalification is a customer approval procedure manufacturers must pass in order to be listed on the end user's Approved Vendor List (AVL) or Approved Manufacturers List (AML). LESER is listed on the AVL / AML of most major end users and Engineering, Procurement, and Construction (EPC) companies worldwide and have often passed a customer audit to reach this status.

The approval process is generally quite demanding, requiring extensive amounts of documentation to be supplied to verify LESER's ability to continually provide high-quality safety relief valves and service standards to support customer requirements. Once qualification is completed, LESER safety relief valves can be supplied to major end users worldwide without further documentation needed.

This chapter shows a selection of end users from the global market who have authorized the use of the LESER products in their plants.

If you require additional information or an approval not listed, please contact: sales@leser.com.

Global Approvals

LESER safety relief valves are type-tested according to all major codes (PED, ASME, EAC (old GOST), TS, etc.) and classification societies. Coverage of all codes ensures compliance to all regulatory requirements and worldwide usability.

This chapter shows a selection of global approvals for LESER products and services. If you require an approval not listed, please contact: sales@leser.com.

Company approvals

Authority	Country	Type of approval	Applied standard	Approved since
Selo	China	Manufacture License of Special Equipment	AQSIQ	1998
TUEV Cert	Germany	Management system	EN ISO 9001 : 2000	1992
TUEV Cert	Germany	Environmental management system	EN 14001 : 2005	2001
TUEV Nord	Germany	QS-System, manufacturing of pressure equipment	PED 97/23/EC, Modul D/D1	2000
TUEV Nord	Germany	LESER test lab for steam and water	VDTUEV SV 100, AD 2000-Merkblatt A2	1985
TUEV Nord	Germany	Manufacturer of safety valves	AD 2000-Merkblatt HP 0	1991
TUEV Nord	Germany	Welding workshop	EN 3834	1997
ASME	USA	UV Stamp, Manufacture of pressure relief valves	ASME Sec VIII Div. 1	1991
ASME	USA	LESER test lab for air and water authorized observer	PTC 25, ASME Sec VIII Div. 1	1994
National Board	USA	Management system application of the "NB" mark	ASME Sec VIII Div. 1	1991
